

125 mm FSAPDS PRACTICE SHOT

125 mm FSAPDS Practice shot is used for training purpose. The shot is similar to soft core design except the penetrator, which is made from steel rod of EN 24 assembled with Tungsten Nose.

The shot has the following parts:

1. Penetrator (Steel) assembly with Tungsten Nose
2. Sabot
3. Tail Unit
4. Nylon Centering Band and Driving Band
